Conjuguemos Login Instructions

We will be using an interactive Spanish website this school year. Below are the directions on how to access the site as well as how to log in with your student accounts that I have created for you.

1. go to www.conjuguemos.com
2. Click **LOG IN** in the upper right corner.
3. I have created logins and passwords for all of you. Please follow the template below to determine your login and password.

all letters in the username and password should be lowercase with no spaces

Username: jjh first initial last name

Password: spanish2

For example, my
username would be
jjhkchristy

Yes, everyone's password is the
same. I can teach you how to
change it later. For now, I just want
everyone to be able to successfully
access the site and log in.

If it was successful you will be logged in and see a message from me along with 4 practice activities. If you're not successfully logged in, you could have made a mistake typing in your info. Reread the directions above and try again, ask a classmate or teacher to double check you're entering it in correctly.

If you have retried it and it still doesn't work, it's possible I made a mistake on my end as I was hand entering all of them, email me if yours isn't working and I can edit it on my end.

4. Once logged in, complete the 4 practice activities. They are a review of Spanish 1 present tense verbs, regular and irregular. While you should be able to complete these without assistance you can always check your composition book as a resource. Practice activities can be redone for a higher score.
